

# JANKI CHOVIYA

AI & ML Engineering Student

## contact

- 63538 23622
- choviyajanki010@gmail.com
- www.linkedin.com/in/choviyajanki-00188b234
- https://github.com/choviyajanki

## Technical Skills

### programming Languages

- python programming

### Libraries & Tools.

- Numpy
- Pandas
- Matplotlib
- Tkinter (GUI Development)
- Scikit-learn(Basic ML Models)

### DataBases

- SQLite3
- MySQL(Basic Knowledge)

### Other Skills

- Regression & classification Models
- Knowledge of Neural Networks (currently Learning)

## Certifications

- Bachelor Of Computer Application Certificate  
Completed 2023

## Education

Bachelor of Computer Application  
Veer Narmad South Gujarat University  
Graduated: February 2023

Master Of Science (AI-ML)  
Veer Narmad South Gujarat University  
Pursuing

## Languages

- Native Gujarati
- Basic English And Hindi

## Mini projects

### ✦ Iris Flower Classification using KNN

- Implemented a machine learning classification model using Python and Scikit-learn to predict iris flower species from sepal and petal measurements.
- Preprocessed data using train-test split (67%-33%) and explored dataset features from sklearn.datasets.
- Developed and trained a KNN model with Manhattan distance and distance-based weighting for improved accuracy.
- Evaluated performance using confusion matrix and accuracy score, achieving XX% accuracy (fill with your score).
- Visualized dataset insights and model predictions using Matplotlib.
- Technologies :** Python, Scikit-learn, Matplotlib, NumPy

### ✦ Text Summerizer with google gemini API

- Developed an AI-powered Text Summarizer using Streamlit and Google Gemini API, enabling users to generate customized summaries with selectable length and tone.
- Implemented environment variable management, dynamic prompt generation, and an interactive user interface for enhanced user experience.
